Forecast for Sunday 03 Sep 2023

Weather: Early mist and fog patches are possible in valleys at first, perhaps with some low cloud on western slopes. This should lift and clear by mid-morning, leaving a warm, dry day with prolonged, but hazy sunshine.

Chance of cloud-free hill tops above 800m: 90% at first, becoming 100% by mid-morning.

Low Cloud and visibility: Areas of mist or fog at first in a few valleys, with patches of low cloud on western slopes, base 100-300m, quickly clearing in the morning. Otherwise, likely clear views of distant hills throughout.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Some moderate to high UV levels so sun protection and adequate hydration are advised if you intend to go on a long walk.

Forecast for Monday 04 Sep 2023

Weather: A few early mist and fog patches in valleys at first, but very quickly clearing to leave another sunny and very warm day with light winds.

Maximum wind: East or southeasterly 10mph.

Chance of cloud-free hill tops above 800m: 100%.

Low Cloud and visibility: Mediocre in valleys locally, with mist and a few fog patches early morning, otherwise very good visibility all around.

Temperature: **Valleys:** Plus 13 Celsius increasing to 24 Celsius.
At 800m: Plus 07 Celsius increasing to 18 Celsius.
Freezing level: Above summits.
